## **PREFACE**

The maps and charts contained in this Reference Paper describe the geographical distribution of agriculture in Canada. The generalized types of farming map serves to locate the main type of farming areas and the dot maps show the concentration and dispersion of crop acreages and live stock numbers. Other aspects of agriculture are illustrated on chart and hatch maps.

The graphic descriptions, based on data published in the 1951 Census reports, were prepared by the Economics Division, Canada Department of Agriculture with the assistance of the Census Division, Dominion Bureau of Statistics. The maps and charts were processed by the Art and Photography Unit of the Information Service, Canada Department of Agriculture and the Drafting Unit of the Administration Division, Dominion Bureau of Statistics.

## **PRÉFACE**

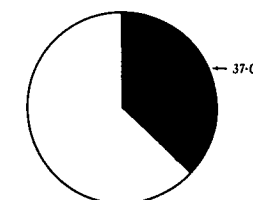

Les cartes et les graphiques contenus dans le présent Document de référence décrivent la répartition géographique de l'agriculture au Canada. La carte illustrant les types communs d'exploitation agricole situe le principal type de secteur agricole et les cartes de points indiquent la concentration et la dispersion des superficies en culture et du nombre de bestiaux. Les graphiques et les cartes hachurés illustrent d'autres aspects de l'agriculture.

Les descriptions graphiques, fondées sur les données publiées dans les rapports sur le recensement de 1951, ont été préparées par la Division de l'économie rurale du ministère fédéral de l'agriculture en collaboration avec la Division du recensement du Bureau fédéral de la statistique. Les cartes et les graphiques ont été préparés par la Section du dessin et de la photographie du Service d'information du ministère fédéral de l'agriculture et la Section du dessin, de la Division de l'administration, Bureau fédéral de la statistique.

RÉPARTITION PROPORTIONNELLE DE LA POPULATION TOTALE

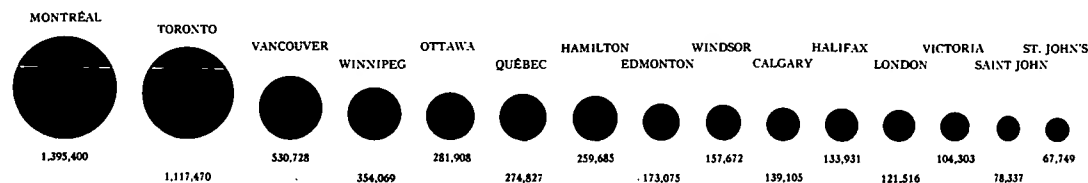

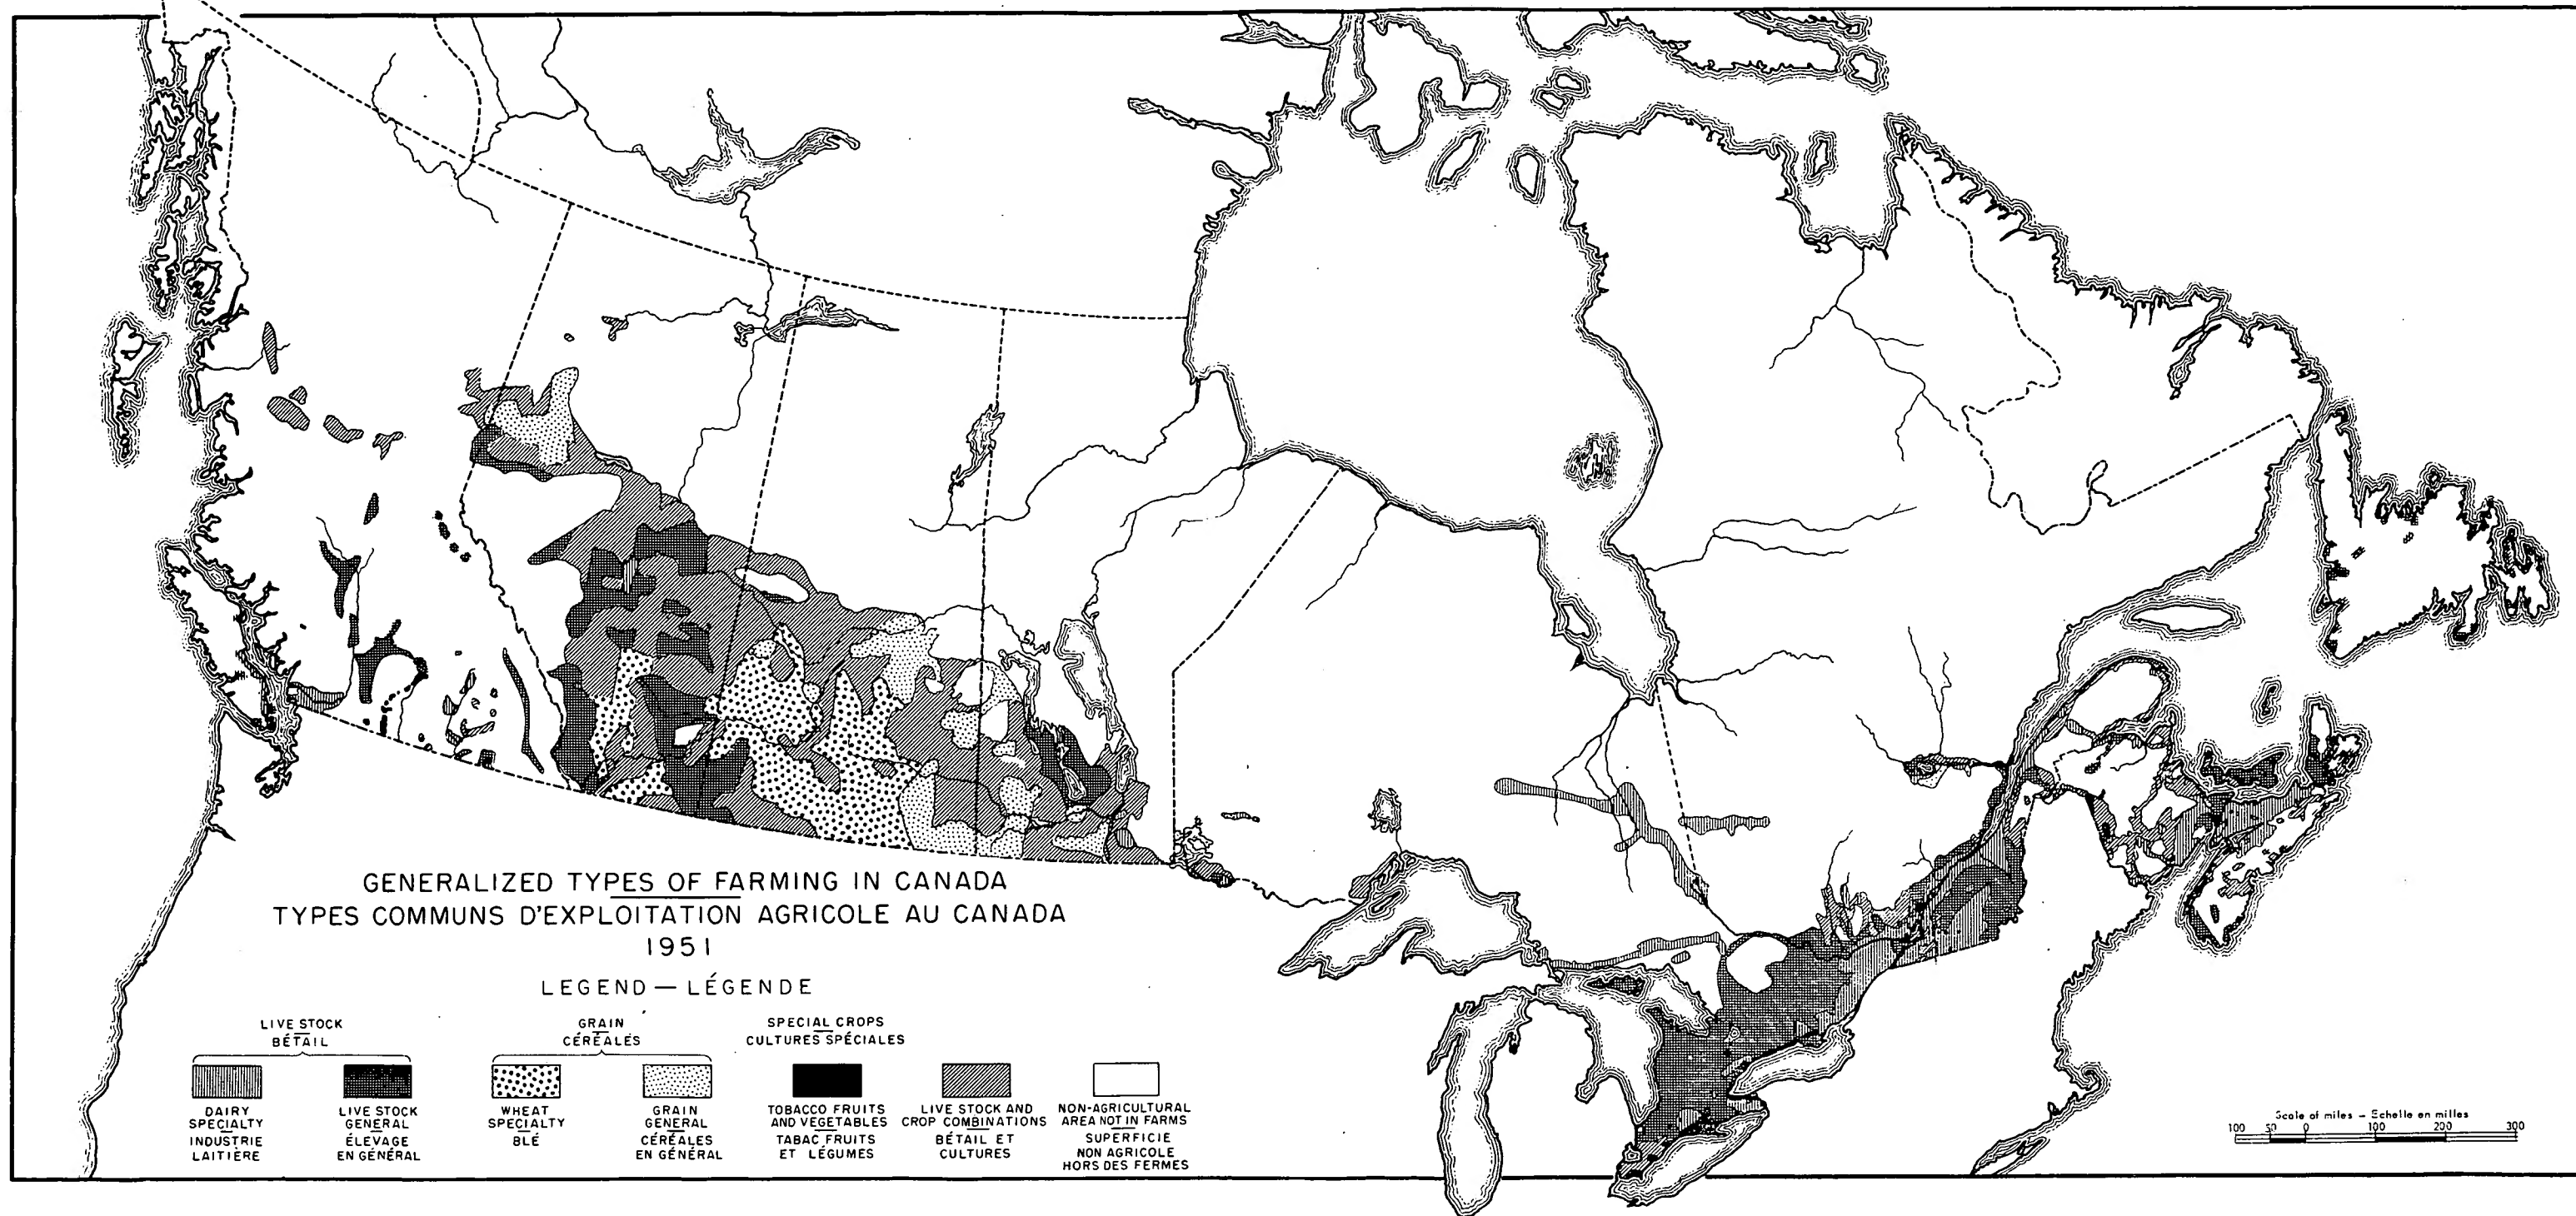

### NOTE:

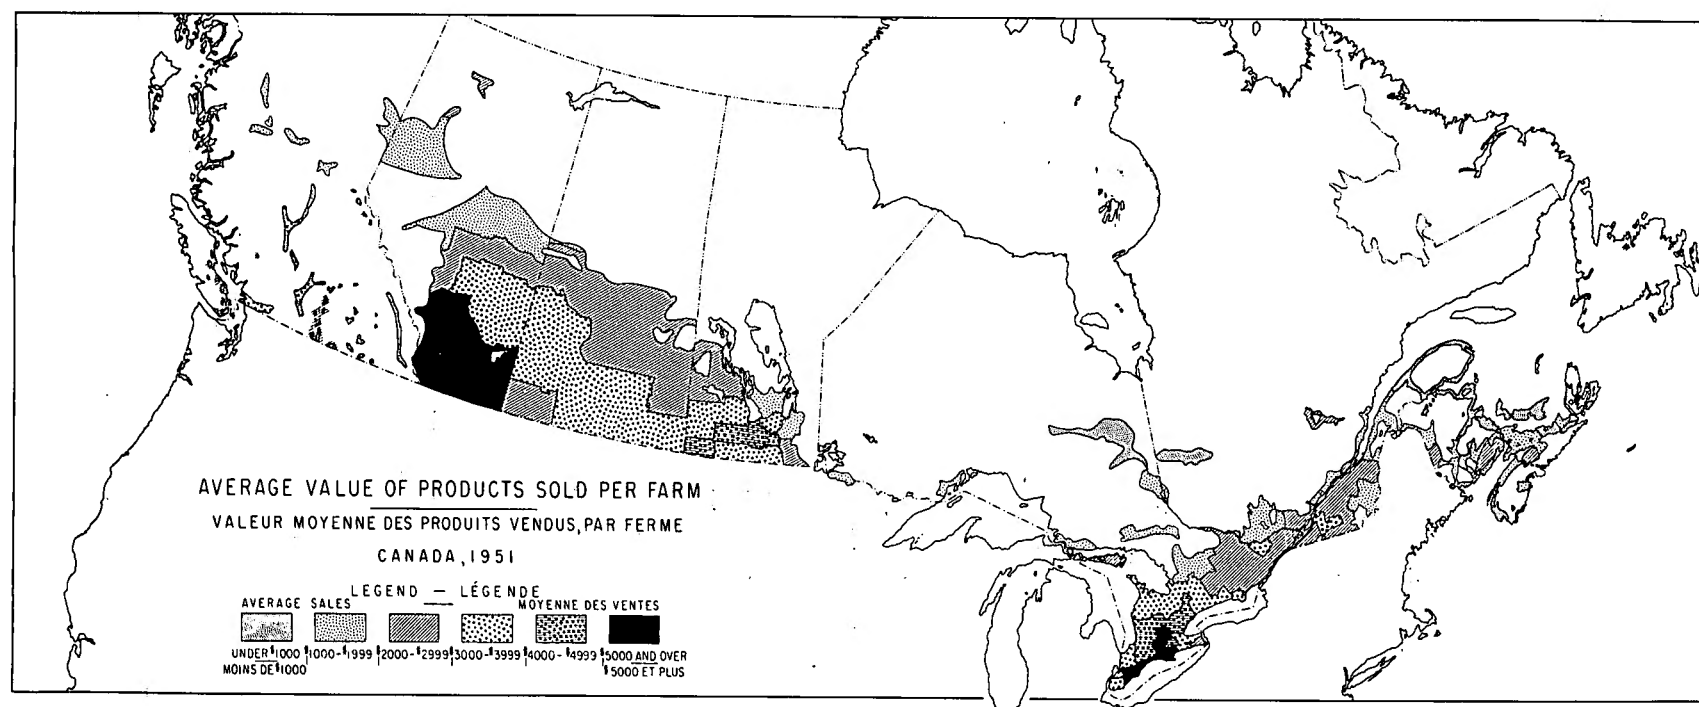

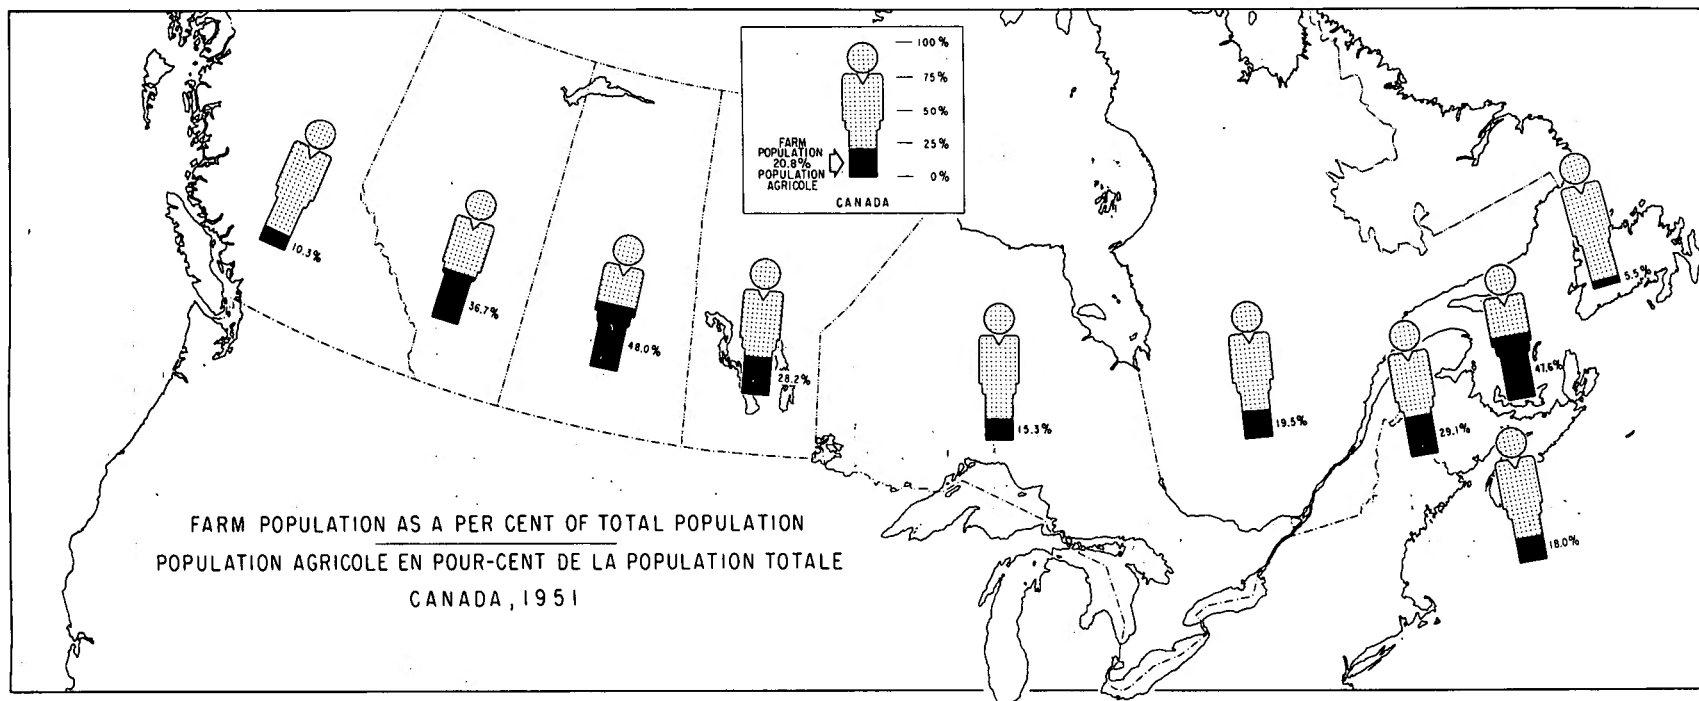

A dot represents 1,000 people but the population of each of the fifteen Metropolitan Areas is shown by a disc proportionate in area to the dot, and their populations are additional to the dot distribution. The Metropolitan Areas are repeated below to facilitate comparison.

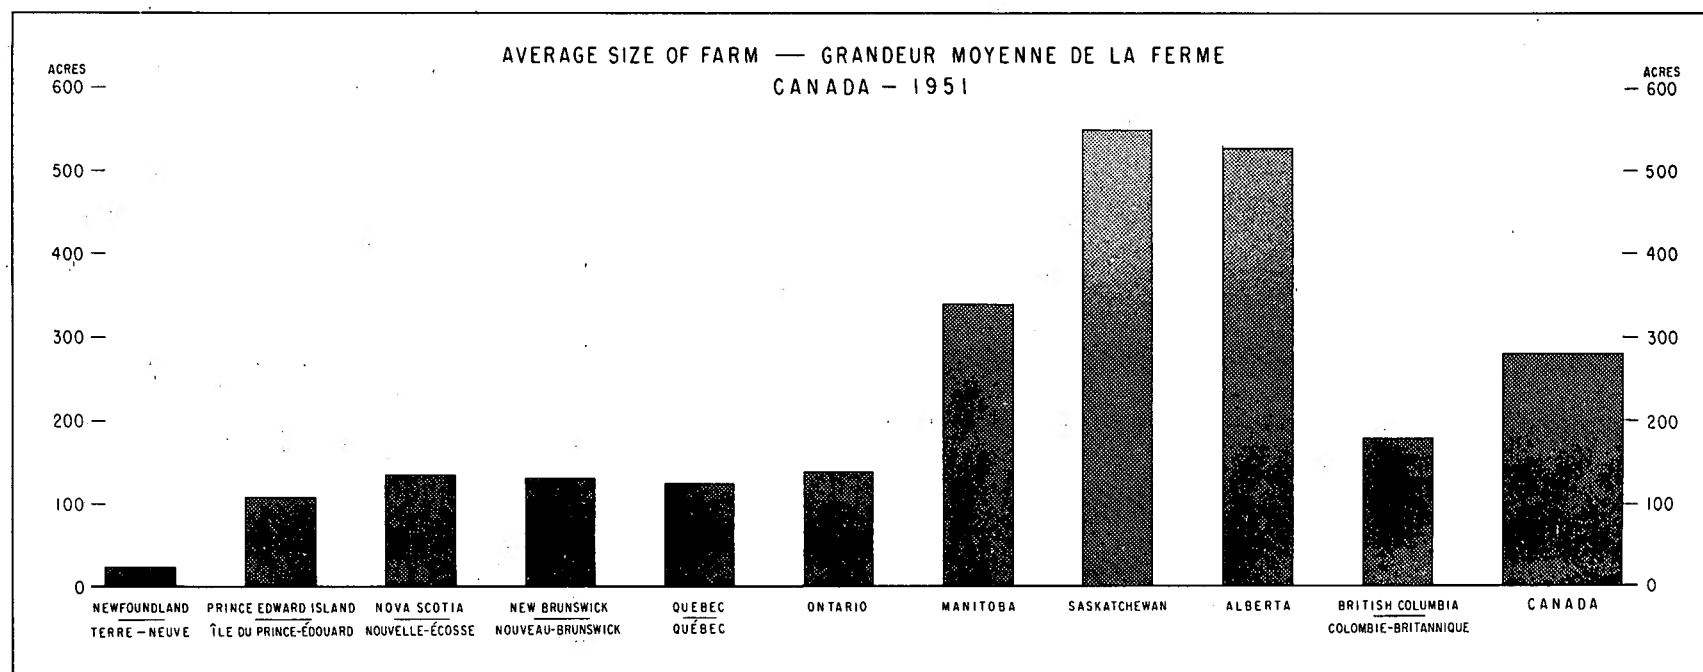

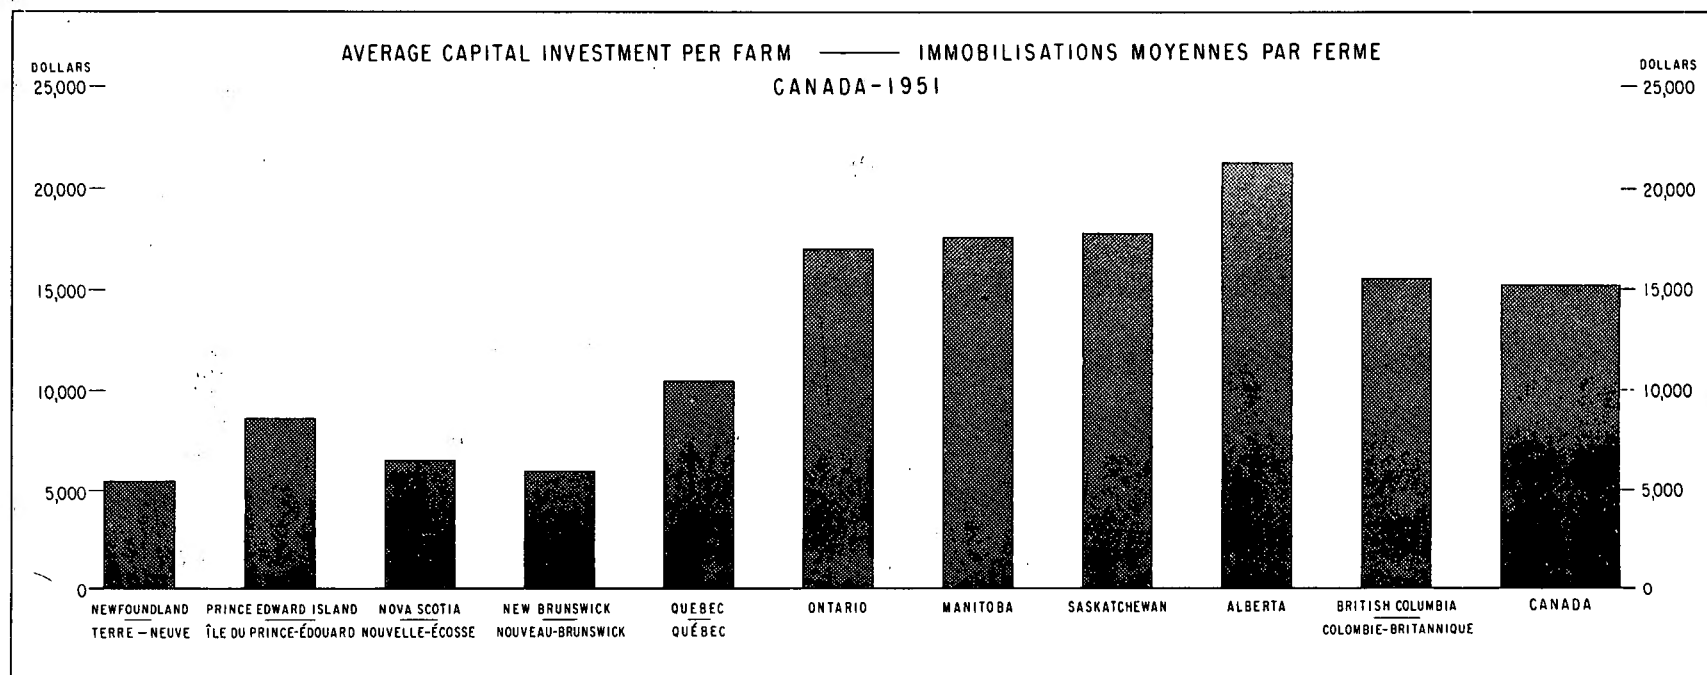

### NOTA:

Un point représente 1,000 personnes, mais la population de chacune des quinze zones métropolitaines est indiquée par un disque de surface proportionnée aux points, et leur population s'ajoute à la répartition par points. Les zones métropolitaines sont répétées ci-dessous pour faciliter la comparaison.
